Clinton Town Mayor Janice Kovach, President of New Jersey League of Municipalities Statement on Passage of the American Rescue Plan

“We are enormously grateful to Senators Menendez, Booker, and the members of the New Jersey House delegation that supported President Biden’s American Rescue Plan. Among the items that directly benefit New Jersey municipalities and residents are municipal aid, major increase in vaccine program funding, child tax credits, direct aid, funds to ensure restaurants stay open, transit aid, and small business assistance. These members sought out the needs of municipalities and delivered enormous results.”
