I. Purpose:

To establish a partnership to help the Middle Township Police Department assist persons with substance abuse disorders when they come in contact with a member of this Department.

II. Policy

The Middle Township Police Department recognizes the significant impact substance abuse can have on not only the abuser, but also the abuser’s family, friends and society as a whole. Many times when officers come in contact with a substance abuser, there are limited options for the officers to give to assist the person in receiving treatment for their addiction. Now through a partnership with CURE, (Christians United for Recovery) and their Advocating Substance Abuse Program (ASAP), this Department will be able to provide access to recovery support services to a person requesting them 24 hours a day, 7 days a week. ASAP will provide phone support, mobile outreach and crisis services.

CURE Volunteers will be issued a Middle Township Police Department Volunteer Identification Card after signing and acknowledging the MTPD CURE Volunteer Pledge of Confidentiality and the MTPD CURE Volunteer Liability Release and Waiver Agreement.
III. Procedures:

A. An officer, upon having contact with any person at headquarters through either an arrest, victim of a crime or a walk-in request to speak with an officer, and the officer suspects or knows that person to have a substance abuse disorder shall do the following:

1. The officer shall ask the person if they wish to receive support services to help with their substance abuse disorder and provide them an information pamphlet describing the ASAP Program.

2. If the person expresses an interest in receiving support services, the officer will ensure the MTPD ASAP Program Participant Agreement is completed and call ASAP at (609)435-6272 and request that members of the Crisis Response Team respond to headquarters to meet with the officer and person requesting support services.

   a. Any officers having contact with anyone entering the Middle Township Police Department who request help with their addiction will be professional, compassionate and understanding at all times.

3. If the person wishing to receive support services only wishes to speak over the phone with a member of the Crisis Response Team, allow the person to use a department phone.

4. If the person is under arrest and will be incarcerated after processing, and the person expresses an interest in receiving support services, the officer will obtain contact information for the person and forward the information to (609)435-6272.

5. If the person at headquarters does not wish to receive support services, complete whatever is needed to complete the call for service and send them on their way.

6. When a member of the Crisis Response Team responds to headquarters, the officer will check the identification of the CURE Volunteer and introduce them to the person requesting support services and give them privacy to talk unless either party requests the officer remain present.

7. The Crisis Response Team member will ultimately be responsible for facilitating and decision-making processes related to intervention referrals.

8. Upon the completion of the meeting complete whatever is needed to complete the call for service and send the subject on their way.
